PROFESSIONAL SUMMARY

Self-directed software developer who designs, builds and ships web and mobile products end to end: React/TypeScript front ends, Node/Express or FastAPI back ends on Supabase, Postgres or Firebase, real payments with Square, Stripe and StoreKit, and the AI automation behind them. Submitted an iPhone app (PassOkay) to the App Store, built with Expo/React Native plus native Swift Vision and StoreKit. Runs roughly 50 coordinated AI agents for social, outreach, phone calls, documentation and code review. Brings 15+ years of IT support, including Apple Support at Teleperformance, plus Google Cybersecurity coursework.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Swift, HTML/CSS, SQL, Shell/Bash, PHP, BrightScript

Front end: React, React Native / Expo, Vite, Astro, Next.js, responsive and accessible UI

Back end & data: Node.js / Express, FastAPI, Supabase, PostgreSQL, Firebase, Appwrite, REST APIs, auth and role-based access

Mobile & payments: iOS (Swift), Expo / React Native, Apple Vision (on-device), StoreKit, App Store submission; Square, Stripe

AI & infra: AI agents and orchestration, workflow automation, Gemini image/text models; Docker, Git/GitHub, CI and PR review tooling, Hostinger, DNS

SELECTED PROJECTS

PassOkay **iPhone app in App Store review · passokay.com**
Solo-built passport, visa and ID photo app that checks photos against document specs on-device: Expo SDK 55 / React Native, native Swift Vision checks (face, head size, centering, eyes, tilt, lighting, background); StoreKit purchase; Astro/Node web version.

AwkBeats **Live · awkbeats.com**
Beat marketplace with lease tiers, sample packs, session booking and a download library. React/TypeScript (Vite), Express API, Supabase, Square checkout. iOS companion app in progress.

Restoration Fellowship Church **Live · rfcvaldosta.com**
Public site plus private staff dashboard for events, outreach, photos, guest and prayer lists and finance records. Vite, React, TypeScript, Supabase.

damage-report & damage-report-loop **Open source · GitHub**
Developer tools for Cursor Agent: evidence-based pull-request status reports and bounded audit-fix-test loops against GitHub PRs (Shell, JavaScript).

More builds: Loaded Sound Management (artist management, Square-paid consultations; Astro, Node) · **CLUTCH** (on-call labor marketplace; Expo iOS + React on Firebase) · **The Couch Is Dirty** (self-hosted podcast platform; Postgres, Docker, Swift) · **FormFlow DB** (PDF autofill; FastAPI + Next.js) · **Darkjuan Logic Games** and Gemini image tools (React 19, TypeScript; coolbeanman.com)

PROFESSIONAL EXPERIENCE

Independent Software Developer & IT Support (contract) · **Vibe Virtue Enterprise** — Valdosta, GA · Jan 2009 – Present

- Design, build and ship web and iOS products end to end: front end, back end, payments, branding and AI automation; published open-source PR review tools.
- Submitted an iPhone app (PassOkay) to the App Store with on-device Apple Vision checks and StoreKit in-app purchase; integrated Square, Stripe and StoreKit payments across projects.
- Provide IT support for end users: hardware, software and connectivity troubleshooting, workstation and network setup, malware removal, data backup.

Advisor Level 1, Apple Support Department · **Teleperformance** — Dec 2025 – Present

- Support Apple customers: diagnose issues with targeted questions, guide knowledge-base troubleshooting, document cases and escalate with clear context.

Earlier Roles · **Healthcare, Logistics and Retail** — 2007 – 2025

- Transporter / Lift Technician, SGMC (2021–2025); delivery and line-haul driver roles (2014–2019); Sales Associate, Follett Books (2009–2014); Assistant Store Manager, CVS/Pharmacy (2007–2009).

EDUCATION & TRAINING

Google Cybersecurity Certificate coursework (Coursera) · 6 of 8 courses completed — 2024

Cybersecurity studies toward a Technical Certificate of Credit (TCC) · Wiregrass Georgia Technical College — In progress

Pro Tools / Digidesign certification · audio production
